

www.atlas-apex.com

NOT YOUR AVERAGE ROOFING COMPANY.

Walk into our offices and the first thing that comes to mind is that we don't look like a roofing company. Talk to any of our staff and you won't feel like you're talking to a roofing company. **That's because we are not like any other roofing company in the world.**

OVER 85 YEARS OF ROOFTOP PERFORMANCE.

With over 85 years of experience in the roofing business, we've created a smarter roofing company designed around the way our customers run their businesses. We provide all the tools and information they need, when and how they need them.

SERVICES

RE-ROOFING AND RESTORATIONS

Atlas-Apex Roofing Inc. has a vast understanding of roofing systems, applications and technology. This experience, combined with our constant drive to innovate, has resulted in a unique

communications system called the Re-Roofing Communications System, or RCS. This complete customer portal houses all the “live” information our customers need throughout the entire process of their roofing project – an industry first.

NEW CONSTRUCTION AND WATERPROOFING

A brand new roofing project requires a completely different skill set and level of experience. You can count on Atlas-Apex Roofing Inc. to work with your building partners to get the job done

right. Waterproofing is another area where our customers get best-in-class services and all the details they need to make better, more effective decisions about their building.

EMERGENCY ROOFING REPAIRS

It's an emergency. We understand what it means to your business and how it affects your bottom line. And we have a proven system to get you the right solution as fast as possible

– 24/7/365. Our Emergency Response System is exactly what it says it is – a system and a team of people who manage the process and communicate what you need to know ... when you need to know it.

SIDING AND SHEET METAL

The siding and sheet metal division of Atlas-Apex Roofing Inc. brings years of experience and state-of-the-art customizations to your building. Atlas-Apex Roofing Inc. was the first in Canada to

install a web-based breaking and shearing system for siding and sheet metal work.

ENVIRONMENTAL SOLUTIONS

With the drive towards solar power capture, many companies come to us for the latest innovations. For both solar energy and rooftop installations, we help companies get the information they need to make smarter decisions.

Lightweight concrete delivers many new benefits that make it an excellent alternative in roofing today. Its ability to provide high insulation values with reduced weight, reduced costs during installation and re-roofing, and a lower impact on the environment all make lightweight concrete a superior choice.

In the roofing business, one of the largest contributors to landfill is the disposal of roofing waste products. While we don't design or specify actual roofing materials, we recommend using recyclable materials wherever they are appropriate for our customers. Atlas-Apex Roofing Inc. has been at the forefront of finding the right solution for each and every situation.

PROJECT EXPERTISE

Manufacturing

The key in a manufacturing environment is to minimize downtime as much as possible. With this goal in mind, Atlas-Apex Roofing Inc. keeps customers informed at all times about the status of the project and what to expect next.

Hospitality

The hospitality industry requires a very specific and sensitive focus. Because the business continues to serve its clientele while roofing work is being completed, the perceptions of the location's customers are critical. Things like safety, noise control and general cleanliness all contribute to a positive experience for patrons.

Healthcare

No other roofing situation is more critically sensitive than work in the healthcare industry. The interruption of or interference in healthcare services is the biggest challenge Atlas-Apex Roofing Inc. often faces. Through good planning and communications, Atlas-Apex Roofing Inc. can make the transition back to normalcy with the least disruption to the provision of care.

Office

In a highly competitive marketplace, Atlas-Apex Roofing Inc. is able to offer commercial and office roofing solutions that are both affordable and time sensitive. Where keeping occupancy rates at optimum levels is paramount, Atlas-Apex Roofing Inc. offers quick turnaround and a well organized, well communicated process that keeps your tenants and other stakeholders happy.

Educational

Educational institutions require a very specific and tactical approach. Scheduling plays a major role in providing efficient roofing repairs and services. Atlas-Apex Roofing Inc. takes great pride in our ability to manage time-sensitive work.

Institutional

Institutional customers are always under pressure to provide ongoing value based on an ever-changing revenue stream. It's the same with the roofing business. For all our institutional clients, Atlas-Apex Roofing Inc. provides a flexible range of services to fit any operating scenario.

Retail

Roof repairs and services in the retail environment require a solid understanding of how retailers operate. With a goal of minimal disruption, Atlas-Apex Roofing Inc. works with all stakeholders to minimize the impact on both staff and customers. Again, the power of a well-planned project is what separates us from everyone else in the business.

CONTACT US

Thank you for your interest in Atlas-Apex Roofing Inc. If you have any further questions regarding our products or services, or how Atlas-Apex Roofing Inc. can address all your roofing needs, please contact us.
