

RE-ROOFING

www.atlas-apex.com

NOT YOUR AVERAGE ROOFING COMPANY.

Walk into our offices and the first thing that comes to mind is that we don't look like a roofing company. Talk to any of our staff and you won't feel like you're talking to a roofing company. **That's because we are not like any other roofing company in the world.**

OVER 85 YEARS OF ROOFTOP PERFORMANCE.

With over 85 years of experience in the roofing business, we've created a smarter roofing company designed around the way our customers run their businesses. We provide all the tools and information they need, when and how they need them.

THE ART AND SCIENCE OF RE-ROOFING.

Our professionally trained roofing crews can work on any structure or size of roof, no matter how simple or complex the roofing project is. Whether it's industrial, commercial or institutional, we have a great deal of experience with all roofing systems and we always get the job done right.

We employ state-of-the-art roofing technology and have helped thousands of companies all across Canada find the best solution for their roofing needs.

RCS RE-ROOFING COMMUNICATIONS SYSTEM

TECHNOLOGY AND COMMUNICATION ARE A BIG PART OF WHY COMPANIES CHOOSE TO DO BUSINESS WITH ATLAS-APEX

When we begin a re-roofing project, we set up our clients with their own private project management window. Here they can immediately access all the information relating to their project. Everything, including percentage complete, the local weather, the team working on their project and all necessary documentation, including financials, is available 24/7 with the click of a mouse.

Through the RCS, our customers know exactly what's going on with their project, every step of the way, each and every day. They can see pictures as the job progresses, access roofing plans and communicate with us directly through the system.

WHAT IS A \$50 MILLION LIABILITY POLICY WORTH TO OUR CLIENTS?

We may be the only roofing company in Canada to provide \$50 million in liability insurance, but we do it for some very special reasons. It gives our customers peace of mind knowing their employees and customers are fully covered in the event of injury.
